

Research Ethics Workshop:
Promoting Ethics in Research Part II

UC San Diego
Date: Wednesday, May 6, 2015
8:30 a.m. to 12:00 p.m.

UC San Diego
Research Ethics Program

Sponsored by the National Science Foundation and the
UC San Diego Research Ethics Program

What is the purpose of the workshop?

The workshop is designed to result in concrete, discipline-specific strategies and plans to incorporate research ethics education into the mentoring of trainees and staff. Doing so can also help to meet NSF and NIH requirement for teaching of responsible conduct of research.

Who is the workshop for?

Faculty from UCSD are invited to participate. There is no charge, but advance registration is required. The workshop is designed appropriate to be appropriate for diverse disciplines spanning the natural sciences, physical sciences, engineering, social sciences, and humanities.

On successful completion of the workshop, in the context of their particular research environment, participants will be able to:

- Articulate rationales for integrating research ethics education
- List and describe ethics topics suitable and useful to be addressed
- List and describe approaches for integrating research ethics education
- Design one or more activities to introduce research ethics

Presented by:

Michael Kalichman, Ph.D.

Director, UC San Diego Research Ethics Program (<http://ethics.ucsd.edu>)

Project Director, Resources for Research Ethics Education (<http://research-ethics.net>)

Registration Deadline and Attendance:

Please register no later than two weeks before the program. Workshop attendance is limited to 15 faculty.
