

**Research Ethics Resources**  
**University of California, San Diego**

1. Ask about and obtain approvals before conducting research with humans  
Office of Institutional Review Board Administration, UCSD  
<http://irb.ucsd.edu>
2. Ask about and obtain approvals before teaching or research using animals  
Institutional Animal Care and Use Committee  
<https://iacuc.ucsd.edu>
3. Discuss expectations before and during any collaboration  
Macrina FL et al. (1995): Dynamic Issues in Scientific Integrity: Collaborative Research.  
American Academy of Microbiology, Washington, D.C.  
<http://academy.asm.org/images/stories/documents/dynamicissuesinscientificintegrity.pdf>
4. Recognize, declare, and manage conflicts of interest  
UCSD Conflicts of Interest Office  
<http://coi.ucsd.edu>
5. Give credit where credit is due  
International Committee of Medical Journal Editors Authorship Guidelines  
<http://www.icmje.org>
6. Report the truth  
UCSD Integrity of Research Policy and Procedures  
<http://adminrecords.ucsd.edu/ppm/docs/100-4.pdf>
7. Address conflicts with a confidential, informal, and neutral resource  
UC San Diego Office of the Ombuds  
<http://ombuds.ucsd.edu>
8. Report misconduct  
UCSD Hotline 877-319-0265  
<http://blink.ucsd.edu/HR/supervising/resources/hotline.html>
9. Report harassment and discrimination  
Office for the Prevention of Harassment & Discrimination (OPHD)  
<https://ophd.ucsd.edu/>
10. Continue learning about responsible conduct of research  
Research Ethics Program  
<http://ethics.ucsd.edu>
